

Carbon Neutral Goals & Guidelines

Board Meeting
May 18, 2023
Agenda Item No. 10.1

Presented by:
Chamberlain Segrest

CORE VALUE

We recognize that our system

Agenda

-

Initial Process

- “ Facilities Master Plan
- “ Districtwide Energy Audit in 2019
- “ New Building Institute + Sacramento Municipal Utilities District
 - o Determine Energy Use Intensity (EUI) for each building (2018/19 data)
 - o Create Carbon Neutral Goals & Guidelines

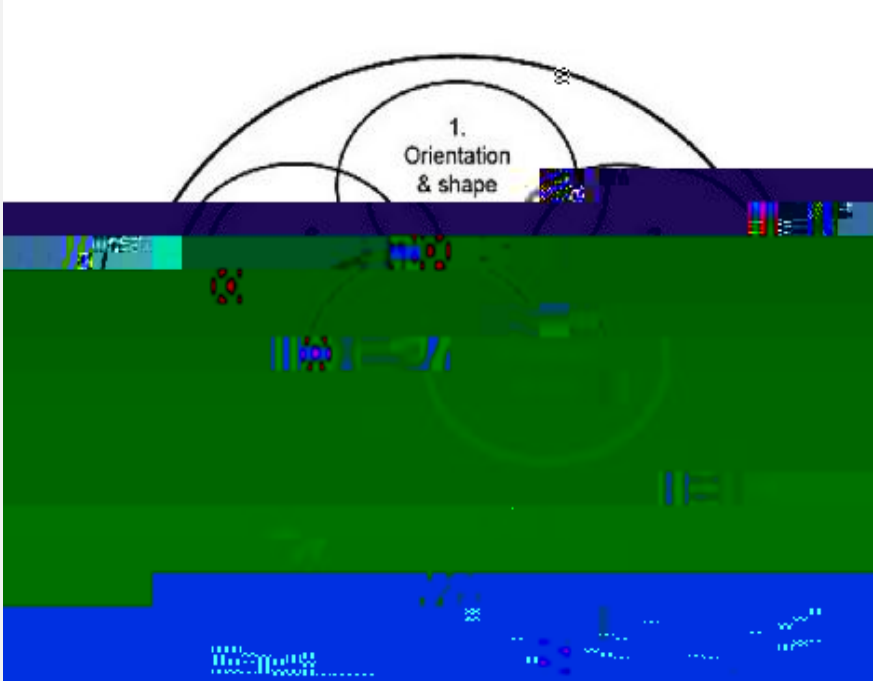

Goals & Guidelines

Portfolio Level Goals

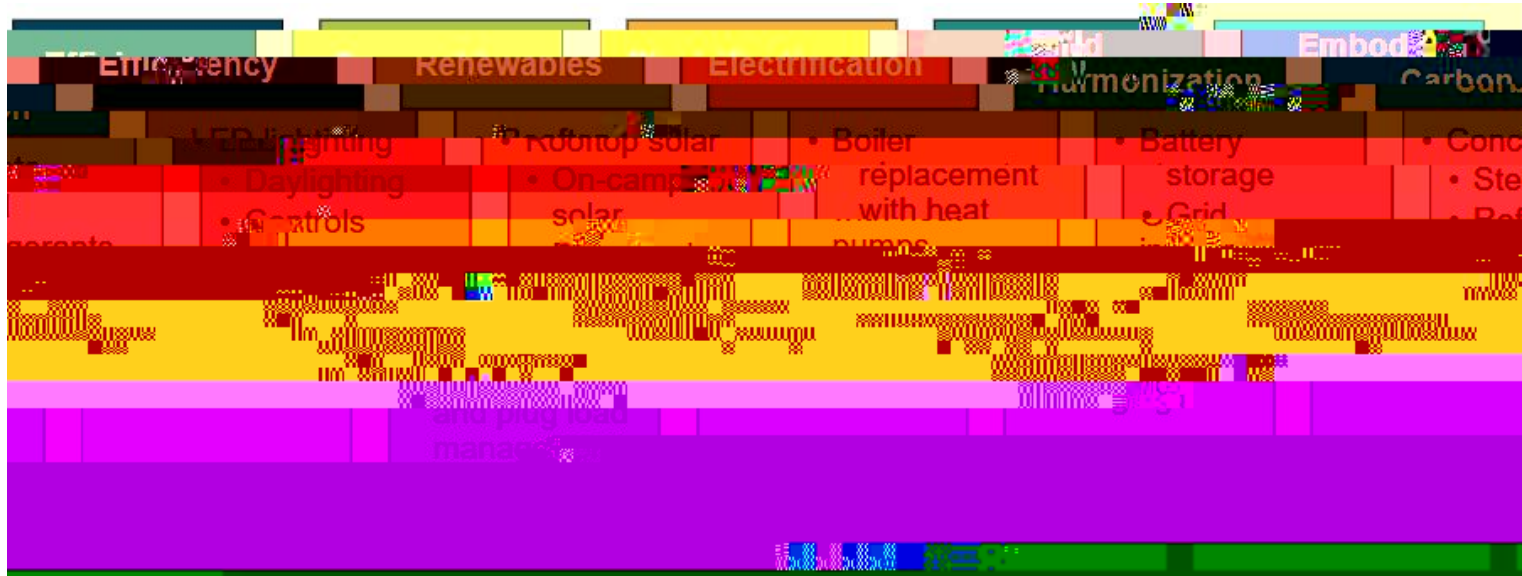

Guidelines

Project Level Goals

1. All new construction projects will achieve a site EUI of 19-21 kBtu/sf/year before PV
 2. All major modernization projects will achieve a site EUI of 25 kBtu/sf/year before PV
- HE All school facility retrofits will improve the site EUI by 20-50% from a 2019 baseline and include a written plan for future removal of all gas-combusting equipment

Costs of Inaction

- Financial
 - Carbon neutral schools are not more expensive
 - Natural gas prices are volatile
 - Utility bills come from the general fund
- Environmental
 - Climate change is a threat to human well-being and planetary health (*very high confidence*)*
 - There is a rapidly closing window of opportunity to secure a liveable and sustainable future for all (*very high confidence*)*
 - The choices and actions implemented in this decade will have impacts now and for thousands of years (*high confidence*)*
 - Buildings contribute 40% of global Greenhouse Gas Emissions
- Social
 - Vulnerable communities who have historically contributed the least to current climate change are disproportionately affected (*high confidence*)*

* from the 2022 IPCC Report
