To the School Board:

This public comment is for the February 2, 2023 SCUSD Board Meeting:

My name is Ari Asher and my child turns 4 in mid-April of 2023, missing the TK cut off by mere days. My understanding is that the TK programs operate below capacity. I am submitting this comment in hopes that the Board considers a plan to allow students who miss the current cut off, but would otherwise have made the cut

Comment or Question:

Good morning,

I am writing to update you on recent public communications from the California Dept of Public Health (CDPH) regarding California covid injection mandates for school. Essentially, CDPH has sent email communications stating they have no intention of pursuing a regulatory channel for school covid injection mandates after the state of emergency ends on February 28, 2023. They have stated that the proper avenue for this mandate would be the CA legislature. Since no such bills have been introduced this legislative session, and last year's effort on Senator Doris CD974 failed to pass, I am writing to you to see if you can help me get this issue back on the agenda for this session.

are even more people opposed to this mandate than last year, it is time

kids were going to be mandated to get the covid injections for school.

Several school districts were selected to "test the waters."

mandates, spawning lawsuits to be filed in various courts, and those lawsuits were all ultimately successful in deactivating these mandates.

Comment or Question:

Another week has passed and the district has not returned to the bargaining table since SEIU provided a counter proposal over 2 weeks ago. We have now lost 3- and potentially 2 more bus drivers. Why is the district not taking this issue seriously? Drivers are working multiple routes. Students are waiting long periods of time to be picked up and dropped off. This is unacceptable.

We are suffering serious other staffing issues- our instructional aides are massively short - there are over 50 vacancies in the district. They are \$15 an hour- while district has no problem contracting out aides for \$2200 a week. Why not fix the the pay scale and make this a come to
