

Sacramento City Unified School District
Board of Education Meeting

October 15, 2020 Public Comments

Name: Amanda Connolly

Comment: I looked at a comparison of pay scales between local school districts a couple years ago. What caught my attention was not that other districts offered higher potential salaries but that our district had more 6 figure earning teachers than all the others. Technically, the other districts had higher paid teachers but you could count them on one hand while SCUSD had more teachers making higher salaries than what I usually hear quoted as a teachers salary. Plus the for life, 0 costs paid, health benefits. My parent's hospital
