Re: SCUSD Sacramento Transgender Day of Visibility Resolution

Dear Sacramento City Unified Board of Trustees,

As the Councilmember representing District 9, I am pleased to announce that I have introduced a resolution to the City Council to support the Sacramento City Unified School District's (SCUSD) Transgender Day of Visibility Resolution. This resolution is a significant step towards recognizing and supporting the transgender community in our schools and district. I am proud to stand with our students and staff in this effort to create a more inclusive and supportive environment for all.

I am pleased to announce that I have introduced a resolution to the City Council to support the Sacramento City Unified School District's (SCUSD) Transgender Day of Visibility Resolution. This resolution is a significant step towards recognizing and supporting the transgender community in our schools and district. I am proud to stand with our students and staff in this effort to create a more inclusive and supportive environment for all.

With reference to the transgender/gender non-conforming students attending our Sacramento USD schools, we are profoundly concerned about the rise in bullying, victimization, and harassment. We deplore the fact that the bullies among the student population routinely single them out for brutally degrading treatment, often with impunity.

This onslaught is so severe that transgender/gender non-conforming students are being constructively deprived of their Constitutional and statutory right, namely the right to a decent education in our public schools.

We also call upon you to protect transgender/gender non-forming teachers from discrimination in their workplaces.

[REDACTED]

Conversely, we call for the SCUUSD to hold its staff members accountable. Your

Comment or Question:

I am writing to express my strong support for the Board of Trustees to adopt the pending resolution regarding the Trans Day of Visibility at tonight's meeting. To be specific, I strongly urge you to vote that the resolution be adopted in its current form

.without significant alteration.

As a family we have been very fortunate to have our children at schools where trans children are valued and protected members of the school community. Not all transgender or gender-nonconforming children in this district are so fortunate. I am part of a network of parents of transgender children, and it seems that nearly every

inclusive policies in education are literally life or death for trans kids.

Please stand up tonight and do the right thing.
