Introduction of SELPA Local Plan

SELPA Local Plan

The Individuals with Disabilities Education Act 20 *United States Code* (20 *USC*) Section 1400 et seq. and related federal regulations, require each special education local plan area (SELPA) to ensure a continuum of program options are available to meet the needs of students with disabilities for special education and related services.

The Local Plan for special education must be developed and updated cooperatively by a committee of representative special and general education teachers and administrators selected by the groups they represent; and with the participation of parent member(s) from the community advisory committee (CAC), or parents selected by the CAC. SELPAs are responsible for making certain there is adequate and effective participation and communication.

SELPAs must ensure a continuum of special education service options are available to students with special needs.

SELPA Local Plan

SELPAAs must complete Sections A, B, D, E and Attachments I–VII of the Local Plan using the current CDE approved templates.

Section A: Contacts and Certifications

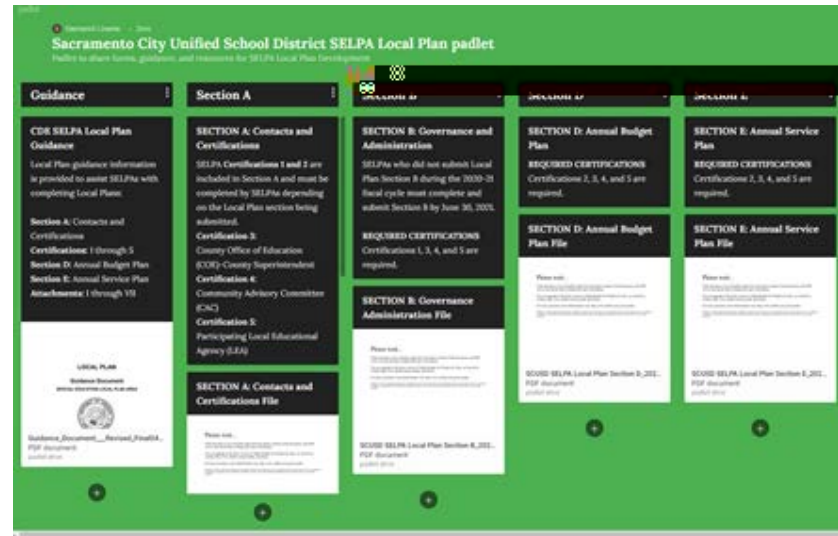

Section B: Governance and Administration

Section D: Annual Budget Plan

Section D. Annual Budget Plan

Local Plan

A SELPA District website and Local Plan padlet were created to provide the opportunity for the public input.

Maintenance of Effort & Local Contribution

Federal law imposes a maintenance of effort requirement (MOE) on state and local spending for special education, mandating that local education agencies spend at least as much each year as they did in the preceding year to receive federal special education funding

Majority of the local spending on special education is comprised of the general fund contribution

Final determination of meeting the MOE is determined with the year end closing process

Projected 2021-22 General Fund Contribution = \$81.1M

\$8.6M higher than 2020-21 projected contribution of \$72.4M

Prior to the COVID-19 pandemic, the year over year average contribution grew by 13%

\$44.2M in 2014-15 to \$70.7M in 2018-19
