Vice President Pritchett thanked Vice President Minnick for his comment, and she also thanked the presenters. She said she relates to the problem of going to a school where one does not feel pride within their school. She thanked Principal Orr and Area Superintendent Solina for serving our most vulnerable population in a positive way. She asked that services mentioned

Principal Orr said that would be the case

the material revision for growth and the County overturned it. how

would that play out.

Ms. [redacted] stated that the District [redacted]

County all along and provided briefing updates. Regarding the finances of the charter, he shared that it is being looked into now.

President Ryan stated that she is the Board member that represents the charter and has been to the site. She understands it is in

that a future increase in enrollment would happen during years in which the District has financial concerns. Mr. Solina explained their costs and how enrollment would happen in regard to

matriculation with the additional grade levels. She said she feels the Board needs to look at the big picture and asked Mr. Ramos if

practice has been to present charter renewal or revision facts as defined.

President Ryan reminded that we are not approving a new charter; this is a material revision, and with the amendment proposed by Second Vice President Minnick, we are asking to operate under the current enrollment cap. The question is really about the facility, and equity in the facilities, more than anything else. She noted that

Vice President Pritchett asked if the committee meetings will be open to the public. Mr. Browning said that they can be.

Member Murawski asked for clarification on what the Board is being

asked to approve. Mr. Browning answered that it is Board action that would create an ad hoc community advisory committee to rename Sutter Middle School, Peter Burnett Elementary School, and Kit Carson International Academy. What that action would do would be to create a committee to come together to work on developing recommendations that would then come back to the Board later this Spring so that the Board could decide if a name change is appropriate and what that name would be based on the recommendations. The second part of tonight's action would be giving appointed names

from each Board member. Member Murawski asked to clarify for the public that the funding for this will not come out of general operating
